

I am

Banker

I'm trying to

**process all
the Cheque**

But

**it is difficult
to understand**

Because

**the handwriting
differs from
person to person**

Which makes me feel

**frustrated as
takes up much
time**

I am

Teacher

I'm trying to

**find answers of
students from
their homework**

But

**it is hard to
do it**

Because

**their handwriting is
not understandable
because of
unique styles**

Which makes me feel

**more time
consuming**

I am

Postman

I'm trying to

**arrange letters
in digitalized
manner**

But

**some letters may
be unsuitable for
digitizing**

Because

**some characters
are not recognized
by computer**

Which makes me feel

**more
complex**

I am

Blind person

I'm trying to

**digitize my
handwritten
text**

But

**I can't do it
on my own**

Because

**there is no secured
blind friendly app for
digitizing my
handwritten text**

Which makes me feel

**helpless and
dependent**
